

Aging Network Virtual Meetings

Central MN Council on Aging will continue hosting monthly **Aging Network Meetings** virtually. We are very fortunate in our region to have such a strong and collaborative network of providers. In this fluid environment, it is more important than ever to stay connected and updated. These meetings will serve as a platform for providers to update one another on program service changes made, share lessons learned and share innovative ideas for working with older adults, and receive updates from CMCOA.

For questions or to be added to the meeting notification list contact:
Natalie Matthewson - natalie.matthewson@cmcoa.org
